

ETHAN RAMSEY

ENTRY-LEVEL / JUNIOR

Junior Python Developer

Email: ethan.ramsey@email.com Phone: +1 (555) 012-3499 Location: Austin, TX GitHub: github.com/ethanr-dev

PROFESSIONAL SUMMARY

Motivated Junior Python Developer with a strong foundation in computer science fundamentals, data structures, and object-oriented programming. Hands-on experience developing RESTful APIs with Flask/FastAPI and automating web scraping tasks. Quick learner eager to contribute to enterprise-scale backend applications.

CORE SKILLS

Languages & Frameworks: Python 3.x, Flask, FastAPI, HTML5/CSS3, SQL
Tools & Databases: PostgreSQL, SQLite, Git/GitHub, Postman, Docker (Basic)
Libraries & Concepts: Requests, BeautifulSoup, Pandas, REST APIs, OOP, Unit Testing (pytest)

PROFESSIONAL EXPERIENCE

Python Developer Intern | ByteCraft Labs 2023 – 2024

- Assisted in developing RESTful endpoints using FastAPI to serve analytical data to a frontend React dashboard.
- Wrote automated web scraping scripts with BeautifulSoup and Selenium to collect competitive pricing data, parsing 50k+ records weekly.
- Participated in daily Agile stand-ups, code reviews, and created comprehensive unit tests with pytest to maintain 85%+ code coverage.

KEY PROJECTS

Task Management API Service | Personal Project

- Built a modular REST API using Flask and SQLAlchemy with JWT authentication for user session security.
- Containerized application dependencies using Docker and deployed service on Render with PostgreSQL integration.

EDUCATION

B.S. in Computer Science - University of Texas at Austin 2020 – 2024
