

Python Backend Developer

Email: nadia.almansoor@email.com Phone: +1 (555) 018-2233 Location: Chicago, IL LinkedIn: linkedin.com/in/nadia-almansoor

PROFESSIONAL SUMMARY

Versatile Python Backend Developer with 4+ years of experience building scalable web architectures, microservices, and high-performance REST/GraphQL APIs. Adept with Django, FastAPI, Celery asynchronous task queues, and relational database optimization.

TECHNICAL SKILLS

Backend Stack: Python, Django, Django REST Framework (DRF), FastAPI, Flask, Celery, Redis
Databases & Cloud: PostgreSQL, MySQL, Redis, AWS (EC2, S3, RDS), Docker, Nginx
Practices: Microservices Architecture, AsyncIO, CI/CD (GitHub Actions), Swagger/OpenAPI

PROFESSIONAL EXPERIENCE

Python Backend Engineer | Apex SaaS Solutions 2022 – Present

- Architected high-throughput REST APIs using FastAPI and AsyncIO, reducing mean response latency by 35% across 2M daily requests.
- Integrated Celery with Redis as a message broker to handle background email processing and report generation asynchronously.
- Optimized PostgreSQL database queries and ORM calls, reducing heavy database execution times by 40%.

Software Developer | CodeSphere Technologies 2020 – 2022

- Developed and maintained client-facing enterprise web portals utilizing Django and Django REST Framework.
- Automated unit and integration testing pipelines in GitHub Actions, maintaining robust continuous deployment workflows.

EDUCATION

B.S. in Software Engineering - University of Illinois Chicago 2016 – 2020
