

Python Machine Learning Engineer

Email: maya.lin.ai@email.com Phone: +1 (555) 011-9955 Location: Boston, MA Kaggle: kaggle.com/mayalin-ai

PROFESSIONAL SUMMARY

Machine Learning Engineer with 5+ years of experience training, fine-tuning, and deploying machine learning and deep learning models into production using Python. Proficient in PyTorch, Scikit-Learn, MLOps frameworks, and REST API model serving.

TECHNICAL EXPERTISE

ML/DL Libraries: PyTorch, TensorFlow, Scikit-Learn, XGBoost, Hugging Face Transformers, OpenCV

MLOps & Serving: MLflow, BentoML, FastAPI, Docker, DVC, Ray, AWS SageMaker

Specializations: Computer Vision, NLP, Predictive Modeling, Deep Reinforcement Learning, Feature Engineering

PROFESSIONAL EXPERIENCE

Lead Machine Learning Engineer | NeuralWorks AI2022 – Present

- Trained and fine-tuned Transformer-based NLP models in PyTorch for automated document categorization with 96.2% accuracy.
- Deployed production model endpoints using FastAPI, Docker, and AWS SageMaker, handling 500k daily inference requests.
- Implemented MLflow model tracking and automated retraining pipelines triggered on data drift detection.

Data Science / ML Developer | Cognitive Systems2019 – 2022

- Engineered predictive customer churn models using XGBoost and Scikit-Learn, boosting retention initiative effectiveness by 22%.
- Optimized model inference latency by 45% using TensorRT acceleration and ONNX runtime formats.

EDUCATION

Ph.D. in Computer Science (Artificial Intelligence) - MIT2015 – 2019
