

Principal Python & Backend Software Engineer

Email: alex.sterling@email.com Phone: +1 (555) 019-7733 Location: San Francisco, CA GitHub: github.com/asterling-dev LinkedIn: linkedin.com/in/alex-sterling-dev

PROFESSIONAL SUMMARY

Versatile Principal Python Engineer with 8+ years of experience architecting high-throughput microservices, web applications, and automated data & MLOps pipelines. Expert in building REST/GraphQL APIs with FastAPI and Django, managing async tasks with Celery/Redis, integrating React/TypeScript frontends, running PySpark/Airflow ETL pipelines, and serving PyTorch/Scikit-Learn ML models in containerized AWS Kubernetes environments.

TECHNICAL EXPERTISE (COMPLETE JD MATCH)

Languages & Frameworks: Python 3.x (AsyncIO, OOP), FastAPI, Django, Django REST Framework, Flask, React.js, TypeScript, HTML5/CSS3

Databases & Caching: PostgreSQL, MySQL, Redis, MongoDB, SQLAlchemy, Django ORM, Snowflake, AWS Redshift

Data & Automation: Apache Airflow, PySpark, Pandas, NumPy, Scrapy, Selenium, Web Scraping, Automated ETL

AI, ML & MLOps: PyTorch, TensorFlow, Scikit-Learn, Hugging Face, MLflow, BentoML, AWS SageMaker, Model Optimization

DevOps & Testing: Docker, Kubernetes (EKS), Terraform, Celery, GitHub Actions, Jenkins, Git, pytest, unittest

PROFESSIONAL EXPERIENCE

Principal Backend & Platform Engineer | CloudScale Analytics Solutions2022 – Present

- Architected high-concurrency microservices and REST APIs using **FastAPI**, **Django**, and **AsyncIO**, reducing API latency by 38% across 3M+ daily calls.
- Configured asynchronous background processing using **Celery** and **Redis**, handling automated email notifications, report generation, and data export jobs.
- Optimized **PostgreSQL** database schemas, complex SQL queries, and ORM caching strategies, boosting query throughput by 45%.
- Deployed containerized microservices via **Docker** and **Kubernetes (AWS EKS)**, using **Terraform** for Infrastructure as Code (IaC) and **GitHub Actions** for CI/CD.
- Integrated full-stack management dashboards connecting FastAPI backends with modern **React.js** and **TypeScript** user interfaces.

Senior Data & MLOps Engineer | NeuralData Systems2019 – 2022

- Built and automated robust ETL pipelines using **Apache Airflow**, **PySpark**, and **Pandas**, ingesting over 4TB of raw daily data into **Snowflake**.
- Developed web scraping and data extraction workflows using **Scrapy** and **Selenium** to parse unstructured data from 150+ external sources.
- Trained, fine-tuned, and deployed production predictive models (**PyTorch**, **Scikit-Learn**, **XGBoost**) served via FastAPI endpoints on **AWS SageMaker**.
- Set up automated model tracking and drift detection using **MLflow** and **pytest** test suites maintaining 90%+ code coverage.

Python Software Engineer | Apex Code Technologies2016 – 2019

- Developed RESTful API endpoints and web services in **Flask** and **Django REST Framework** integrated with PostgreSQL and MongoDB.
- Created unit and integration testing frameworks using **pytest** and **unittest** to validate core business logic and API data contracts.

EDUCATION & CERTIFICATIONS

B.S. & M.S. in Computer Science - University of California, Berkeley2011 – 2016

Certifications: AWS Certified Solutions Architect – Associate, PCPP1 – Certified Professional in Python Programming
